Applied Suicide Intervention Skills Training

ASIST is a two day interactive workshop in suicide first aid. Participants learn to recognize when someone may be at risk of suicide and respond in ways that help increase their immediate safety and link them to further help. ASIST aims to enhance one's ability whether a caregiver, case-manager, clinician, or family member, to help a person at-risk avoid suicide. This workshop helps people apply suicide first aid in many settings.

Goals & Objectives

ASIST participants will have the ability to:

- **Reflect on how implicit attitudes and beliefs about suicide affect an intervention role**
- **Discuss suicide with a person at risk in a direct manner**
- **Review immediate suicide risk and develop appropriate "safe plans"**
- **Demonstrate skills required to intervene with a person at-risk of suicide**
- **Identify resources available to a person at risk of suicide**
